Waste Management

Why does recycling matter?

Waste is a big problem.

Too much waste is still being sent to landfill sites or being incinerated, when the best solution to reduce our environmental impact is to recycle and compost as much of our waste as possible.

The EU has set strict objectives : By 2020 :

- Landfill will be banned for at least paper, glass, textiles, plastic and metal.
- Separate waste collection systems for these categories must be set up.

Rubbermaid has the ideal solutions to help you set up a Recycling Programme.

Practical guide to set up your recycling programme:

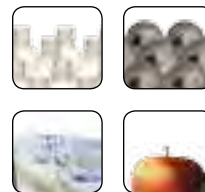

1. Analyse Needs

- What waste streams do you want to recycle?

Possible examples:

- paper
- cardboard
- general waste
- plastic bottles
- cans
- milk and juice (Tetra Pak) cartons

- Identification of contractors who pick up recycling waste.

2. Set Objectives

- Measure the volume of each individual waste type.
- Negotiate with your contractors who pick up recycling waste.
- Define if recycling will be a profit centre.
- Track volume trends.
- Track material trends.
- Measure these results against main objectives.

3. Choose Products and Implement Recycling

- Choose appropriate recycling products.
- Identify key areas for recycling points and put up adequate signage.
- Contract with recycling contractors and define frequency.

4. Training

Success of recycling on site is based on:

- Clearly communicating about your recycling programme.
- Putting intuitive stickers and posters up at recycling points.
- Creating awareness across the site, with awareness posters for encouragement.
- Training cleaners to ensure they are fully engaged in the recycling programme.

Solutions to achieve recycling.

Smarter Recycling.

Rubbermaid offers a wide range of products to help you actively manage and recycle your waste. This includes everything from desk-side containers for paper recycling to complete indoor and outdoor recycling stations and mobile collection equipment for handling larger loads with ease.

Rubbermaid offers Sustainable Products.

Not only do our recycling solutions help you increase recycling rates and reduce waste to landfill, they are designed and manufactured as sustainable products themselves, helping to further reduce overall environmental impact.

Quality and Durability:

Longer lifespan products improve sustainability. Rubbermaid's products are designed and tested to be of the highest quality and durability. Lower replacement costs.

Recyclable:

Rubbermaid's sustainable plastic, aluminium and steel products are engineered with the environment in mind. When a product does finally reach the end of its useful life, it is recyclable.

Recycled Content:

Many of Rubbermaid's sustainable plastic, aluminium and steel products have a significant recycled content. This lessens environmental impact by reducing the demand for raw materials.

Manufacturing, Sourcing and Packaging.

Rubbermaid Commercial Products have made a real and significant commitment to clean, sustainable manufacturing. We search the world over to find the best resources that will meet our stringent quality and environmental standards and continually strive to make our packaging more sustainable, using less material and a higher recycled and recyclable content.

Products made with PCR close the recycling loop by incorporating recycled material into new products !

Environmentally Responsible Products.

- Post-Consumer Resin (PCR) content.
Rubbermaid offers a full line of recycling products that contain post-consumer recycled resin. Metal products contain post-consumer recycled content too.
- Environmental Stewardship-environmentally conscious recycling products enhance facilities' sustainability.

Did you know ?

- Zero factory emissions on all Rubbermaid products made in U.S.A.
- 100% of our Nonconforming products after production checks are reground and reused.

Slim Jim® Containers

The industry standard in space-saving waste management.

- Efficient size and shape designed to fit in tight spaces.
- Durable, all-plastic construction is easy to clean.
- Handled versions make lifting and carrying easier.
- Bottom hand-holds provide a secure grip during emptying.

VENTED CHANNELS

- Reduce the pull force required to lift out full bin liner by 60%.

MOLDED HANDLE

- Make lifting and emptying easy

BIN LINER CINCHES

- Four pull-through holes and bin liner cinches eliminate knot tying.

BASE GRIP

- Offers better control during emptying.
- Moulded-in drag rim provides added durability.

Bottom hand-hold

WASTE MANAGEMENT: Recycling

MULTIPLE STREAM SORTING

- Use any combination of the restricted opening tops to sort up to four separate waste streams. Tops snap securely into lid.
- Commingle lid for mixed recyclables.

FLEXIBLE LABELING

- Includes separate colour-coded symbol and word labels for customising the Recycling Station based on facility needs.

PERMANENT HOT-STAMPED LOGO

EASY TO EMPTY

- Centre hinge allows the lid to be opened from either side for easy access to waste. Eliminates the need to remove the lid during emptying and helps reduce worker strain and trip-and-fall hazards.

Glutton® Recycling Stations

Support your facility's recycling programme, help reduce labour costs, and improve worker well-being.

- High-capacity, all-in-one centralised solutions for efficient waste sorting.
- Includes designated, item-specific tops, symbol label pack, and word label pack in English, Spanish and French that provides visual cue and encourage compliance.
- Features traditional Rubbermaid Commercial Products strength and durability in easy-to-clean, impact-resistant post-consumer plastic.

Fire Resistant Wastebaskets

Simple safe wastebaskets for general waste disposal.

- Rounded corners add strength and durability for long product life.
- Long-lasting, fibreglass. Will not rust, chip or peel and resists dents.
- Scratch-resistant texture cleans easily, maintaining long-term appearance.
- Conforms to important fire resistance standards.
- Tested and classified by Underwriters Laboratories as able to contain burning paper without the wastebasket melting or contributing fuel to the container's contents.
- Saddle Bin FG295073 fits R050713 / R050714 / R050715 for waste separation. (⚠ **FG295073 has no fire resistance certification**).

* compared to non vented Slim Jim containers

New!

SLIM JIM® STEP-ON CONTAINERS

DISCOVER OUR NEW RANGE OF SLIM JIM® STEP-ON CONTAINERS NOW!
Maximise space efficiency with a slim profile and small footprint.
Commercial-grade construction delivers best-in-class durability.
Quiet and controlled lid-closure minimises noise – ensuring a safe and pleasant environment. A comprehensive product offering will more than satisfy the diverse needs of any facility.

Work Smarter.

How much can you do to ensure the safety of your employees?

Implement a more hygienic waste disposal regime

Thorough procedures are necessary to make sure waste is correctly disposed of. It is not just a case of keeping waste out of contact with clean surfaces – the airborne dispersion of bacteria and spores means that waste materials must be well-contained at all times.

Rubbermaid's Step-On range of easy-to-clean hands-free bins help you dispose of waste safely and hygienically:

- Hands-free disposal: heavy-duty pedal for hygienic, hands-free use to significantly reduce cross-contamination through hand contact
- Each bin is equipped with a lid: essential for containing airborne pathogens and odours
- Soft-closing lid damper system: prevents the violent rush of air associated with a poorly designed bin that can disperse airborne contaminants into the surrounding environment
- Rounded corners and smooth contours for easy cleaning
- Hygienic non-porous resin and stainless steel construction for many years of reliable service

Did you know?

Improper disposal of waste can lead to food poisoning in food preparation areas.

Reduce physical stress and cut lost working hours

Repetitive or strenuous physical labour can result in musculoskeletal disorders (MSDs).

Primarily, MSDs can cause severe discomfort for staff, but there are also major costs to consider for employers:

- Medical, rehabilitative and administrative costs
- Loss of productivity
- Absenteeism

It is the employer's responsibility to provide their staff with the appropriate ergonomic equipment to help prevent the occurrence of MSDs. All Rubbermaid products are ergonomically-designed to help reduce physical fatigue and strain.

Rubbermaid's Step-On Best is the ideal solution and provides a number of ways to avoid MSDs:

- Easy emptying
- Front-opening to avoid lifting of potentially heavy waste bags
- Easy-grips for improved control and transport

Did you know?

90% of the working population is affected by musculoskeletal disorders (MSDs) at some point in their working lives. EU directives 90/269/EEC, 89/391/EEC and 89/654/EEC legally oblige the employer to provide staff with safe working environments and appropriate ergonomic equipment.

WASTE MANAGEMENT: Utility & Decorative Step-On

Slim Jim® Step-On Containers

Maximise space with a slender, discrete design and smaller footprints. Commercial grade pedal ensures long lasting product lifecycle. Silent lid minimizes noise to provide a safe and pleasant environment.

New!

SLOW-CLOSING, DAMPENED LID

- Healthcare noise level compliance
- Eliminates wall damages

FINGERPRINT PROOF STAINLESS STEEL

- Stays shiny & bright
- Requires less cleaning

OPTIONAL DUAL WASTE STREAM LINERS

- Unique waste sorting opportunities
- Sustainability options
- Reduces Risk of cross-contamination

EASY-ACCESS FOOT PEDAL

- Hands free, slip free pedal operation
- Reduces risk for cross-contamination

EASY-LIFT RIGID LINER OR RETAINER BAND SYSTEM

- Liners stay-in place
- Increased productivity

WIDE RANGE OF COLOURS

- Waste stream identification
- Reduces cross-contamination

FRONT OR END STEP STYLES

- Minimum footprint with maximum volume
- On-trend design

Slim Jim® Step-On Resin containers Fits in the tightest spaces.

- Space saving, Small footprint
- Silent lid closure minimises noise level.
- Commercial grade pedal ensures long product lifecycle.
- Rigid liner included for End Step containers.
- Easy to clean surface.
- 90L Front Step containers have built-in wheels
- Wide range of colors for waste stream identification: beige, white, red, yellow, grey, black.

FRONT OPENING

- Easy to empty and easy to clean.
- Front opening gives easier access for easier cleaning.
- No heavy lifting—the front opening greatly reduces back strain.

BAG HOLDER

- Secures the polyliner.

LARGE PEDAL

- Large foot pedal permits hands-free opening to reduce spread of bacteria. Compliant with HACCP guidelines.

QUIET OPERATION

- Rubber wheels permit quiet transport without making marks on the floor.
- Damping mechanism gently closes without slamming.

Step-On Best

A 100 l front opening Step-On Bin, meeting users' needs: cleanability, hygiene, safety, ergonomics and durability.

WASTE MANAGEMENT: Hands-free Containers

Step-On Waste Containers

Greater capacity Step-On Containers make waste collection more efficient and help reduce labour costs.

- Hands-free, slow-closing lid.
- Durable stainless steel and plastic construction.
- Extra-large foot pedal for ease of use.

Easy-to-clean construction.

- Available in impact-resistant all plastic and new plastic/stainless steel hybrid construction for easy cleaning and long product life.

Extra-large foot pedal.

- Large foot pedal is easy to locate and operate. Step-On function enables hands-free, hygienic disposal.

FG614687BLA

Key features for Step-On Waste Container and Premium Linen Hamper

CAN LINER RETAINING STRAPS
Metal retaining straps keep can liners securely in place and out of sight during use.

QUIET, SLOW-CLOSING LID
Integrated lid damper reduces excessive noise and helps keep odours and bacteria from escaping.

EXTRA-LARGE FOOT PEDAL
Large foot pedal provides hands-free, hygienic disposal.

Premium Linen Hamper

Collect linen more efficiently and improve worker well-being.

- Quiet, slow-closing lid.
- Highly aesthetic design.
- Metal retaining straps keep can liners securely in place.

Durable construction.

- Impact-resistant plastic and aluminium construction for long product life and easy manoeuvrability.

Quiet casters.

- Quiet casters (two lockable in front and two full swivel in rear) provide quiet manoeuvrability for noise-sensitive environments.

Optional Linen hamper bag.

- Washable, PVC-lined, leak-resistant bag features zippered front access for easy emptying (bag sold separately).

Step-On Containers

Ideal for hands-free refuse disposal.

- Tight-fitting, overlapping lid helps contain odours.
- Rounded corners and smooth contours for easy cleaning and disinfecting.
- Tough, puncture resistant, all-plastic. Construction will not rust, dent, chip or peel.
- Quiet, heavy-duty pedal.
- Optional rigid liners for FG614300GRAY, FG614400GRAY, FG614500GRAY, FG614600GRAY containers provide a leak-proof base to help contain liquids.
- Containers FG624300GRAY, FG624400GRAY, FG624500GRAY, FG624600GRAY are TÜV-approved.
- NHS fire testing approved (FG614600).

Rigid liners available for each size.

Stabilisation roll on FG614600DBLUE.

WASTE MANAGEMENT: Hands-free Containers

The Defenders

Fire-Safe powder-coated Steel Defenders.

- Self closing piano hinged lid.
- Restraint mechanism protects walls and equipment.
- Leak-proof rigid plastic liner.
- Fire-safe and self-extinguishing.
- Ideal for healthcare environments.

- Silent closing available on all sizes (use FGQDAMPERKIT).

- Folding retainer bands hold polyliner bag in place.

- Pedal avoids cross-contamination.

How important is durability to your business?

Products that break or lose performance after only a few weeks or month are serious barriers to productivity, and continual replacement of these items makes it difficult to keep costs down.

The robust Rubbermaid solution

With more than 50 years of designing and manufacturing plastic products, Rubbermaid knows how to do durability.

Our products:

- Are incredibly robust — see 'Did You Know' section below.
 - Are resistant to bending or indentation.
 - Are unaffected by rust: being plastic, our products do not rust.
- All metallic components are made from stainless steel.
- Suitable for extreme temperatures.
 - Suited to indoor and outdoor use.

Did you know?

Our rigorous testing processes are designed to create products that improve productivity, increase efficiency and promote safer working practices.

To prove how tough our products are, we conducted abrasion testing* of the BRUTE® 167-litre container (item number FG2643).

Each BRUTE® container was loaded to 20% capacity with water, a weight of approximately 35 kg. The containers were then held by one handle, tilted and dragged across an interior floor — replicating the way most containers are used. The BRUTE® containers lasted an average of 4.5km until leakage occurred.

Greener plastics

Rubbermaid Commercial Products carefully respects the environment at every stage of the manufacturing process - a substantial proportion of the Rubbermaid's range can already be recycled.

Rubbermaid looks to offer the very best in durability, ergonomics and safety.

Overall, the best return on investment available:

- Longer lasting. Made using the best materials to improve longevity.
- Low replacement rate. Our equipment keeps going and going and going.
- Make cash savings for your company.

* Internal testing

WASTE MANAGEMENT: Utility Waste

- Rear doors allow easy contents removal.

- Secures a can liner and flips up for easy access to storage area.

- Turns on its own axis and fits in tight environments.

- Sorting options:
Holds an optional 87 l Slim Jim® container for improved waste sortation and recycling.

Mega BRUTE® Mobile Collector

Mega BRUTE® Mobile Collector is a highly manoeuvrable and versatile waste and linen collection and sorting system. Innovative design features deliver improved productivity and ease of use.

- High capacity: 450 l.
- Polyliner retainer (secures a 200 l liner).
- Usable with 87 l Slim Jim.
- Optional lid fully covers waste and supplies.

50% EASIER TO LIFT LINERS

The BRUTE® makes what was once backbreaking work easy with built-in venting channels that prevent the liner from sticking and cinches that keep the bag from falling in. It's innovation your workers (and their backs) can appreciate.

BUILT IN VENTING CHANNELS

CINCHES KEEP BAG FROM FALLING IN

BRUTE®

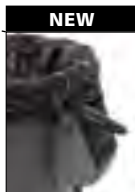

WASTE MANAGEMENT: Utility Waste

BRUTE® Containers

NEW DESIGN - THE TOUGHEST JUST GOT MORE PRODUCTIVE

Since 1968, Rubbermaid Commercial Product BRUTE® containers have been trusted by professionals for their iconic durability and reliability. With every lift, drag and drop, they've outlasted - and outperformed every competitor in their industry thanks to their proprietary design and the highest quality materials. But we're raising the bar even higher with the new BRUTE®. Innovative venting channels make removing liners 50% easier. Integrated cinches secure can liners, meaning knot free liner changes. Contoured base handles improve grip, reduce strain and improve efficiency when emptying containers. Self-draining lid eliminates water pooling.

WASTE MANAGEMENT: Utility Waste

BRUTE® Containers

Smart ergonomics, high durability, fast and safe change-out.

- Proprietary design constructed with the highest quality material plus a UV inhibitor ensures long life in even the most extreme commercial environments.
- Guaranteed to never fade, warp, crack, or crush.
- Rounded handles make lifting and moving easier, and are reinforced to resist tearing or damage from even the heaviest loads.
- Reinforced base is specifically engineered to be dragged over rough surfaces, extending life and overall durability even in the toughest environments.
- Contoured base handles improve grip and ergonomics, reducing strain and improving efficiency when emptying containers.
- Meets NSF 2, 21 approval and is USDA Meat and Poultry Group listed, ensuring regulatory compliance for food storage and clean ability.

New design features

- Innovative venting channels make lifting out liners up to 50% easier, improving productivity and reducing the risk of injury.
- Integrated cinches secure the liner, allowing for efficient knot free liner changes. Tested to 20,000 cycles.
- Rim features integrated rib structure to increase strength and resist crushing.

How can you improve the look of your indoor and outdoor waste disposal units?

Bins don't need to be boring. Say goodbye to rubbish designs with Rubbermaid's range of decorative waste solutions that allow you select the ideal bin for every situation. With Rubbermaid, no longer do you have to put up with cheap-looking bins that fail to last. With exceptional durability and appropriate styles, Rubbermaid Decorative Waste Solutions are built for long-lasting performance, indoors and outdoors.

High-quality materials

Stainless Steel Decorative Waste Solutions:

- Do not stain, corrode or rust.
- Greater resistance to oxidation and corrosion.
- Protective layer immediately reforms when the surface is scratched.

Powder Coated and Galvanised Steel Waste Solutions: Rubbermaid's unique powder coating is a fine plastic powder that cures to form a uniform protective layer.

- Rubbermaid's powder coating is much tougher than conventional paint finishes.
- Powder coating acts like a second skin, helping to protect the product from the elements.
- All galvanised products are coated with zinc to help prevent corrosion.

Did You Know?

Rubbermaid Commercial Products is committed to manufacturing and delivering products in an ecologically responsible manner.

- All of Rubbermaid's plastic and metal containers are 100% recyclable.
- Powder coating spray is 100% recyclable.
- Stainless steel is 100% recyclable.
- Many of Rubbermaid's sustainable plastic, aluminium and steel products are made of significant amounts of recycled material.

A beautiful difference

Just some of the many options available in Rubbermaid's Decorative Waste Range:

- Enhance your building's indoor environments by choosing the very best bins.
- Maintain style and durability in even the harshest of outdoor conditions.

SMOKING OUTDOORS

Public health regulations continue to move smokers outdoors, making it ever more important to keep cigarette butts off the ground and out of waste bins. Rubbermaid's Smoking Management range of outdoor receptacles provide smokers with a convenient and tidy way to snuff-out cigarettes and dispose of them safely.

From our standard Ash/Trash Steel Containers to the innovative Smokers' Pole, Rubbermaid is dedicated to developing simple, easy to empty bins that keep pace with the current move towards outdoor smoking.

Designer Line™

Ideally suited to upscale environments.

- Clean lines with elegant chrome or brass accents.
- Heavy gauge powder-coated, fire-safe steel.
- The exceptional durability provides a low maintenance solution for prominent areas.
- Half round shape ideal where space is limited.

WASTE MANAGEMENT: Outdoor Waste

Ranger®

Ranger® waste containers feature modern styling, and easy-to-service design.

- High-capacity waste management.
- Designed for stadiums, parks, shopping centres, and other high-traffic areas.
- Permanently attached hinged lid for easy emptying.

MODELS WITH DOORS ARE UL/FM AND CSFM APPROVED.

LID OPTIONS

2 HINGED DOORS

- for waste concealment and odour control. (FG843088 and FG917188)

4 OPENINGS

- for easier access in high-traffic areas. (FG917388)

BETTER LINER RETENTION

Metal retainers keep can liners securely in place and eliminate knot tying.

ENHANCED DURABILITY

Ranger® lids feature integrated, durable hinges that keep the lid securely attached to the container during emptying.

WEIGHTED BASE OPTION

Optional Weighted Base (FG917700) is secured with screws for added stability.

Metropolitan Smokers' Station

Introducing Rubbermaid's solution to smoking litter management: Metropolitan is a stylish all-metal, high-capacity smokers' station.

EASY-TO-EMPTY

Hinged lid flips open to provide complete access to the 6 liters galvanized liner. Simply lift out liner, discard waste, and re-insert.

USER-FRIENDLY

Stainless steel snuff plates on both sides of unit.

WEATHERPROOF FINISH

Long-lasting Uni-Koat® powder-coated finish.

SECURITY FEATURES

Integrated keyed cam lock secures lid against tampering and helps reduce replacement costs.

AESTHETIC & DURABLE

All-metal construction in a slim, contemporary design.

WEIGHTED BASE AND BOLT-DOWN CAPABILITY

Base features holes for standard 9.525 mm lag or concrete bolts (not included) and is weighted for stability.
